

Second Grade, Track 2

Weekly News

Ms. Christon & Mrs. Levesque

What we've been working on in the room...

Writing

- We are beginning our writing like a scientist unit.
- They will learn to record, to questions, to hypothesize, and to observe and teach others.
- Students will be encouraged to follow the scientific process of making a hypothesis, conducting experiments, recording observations through writing and sketches, collecting data, and drawing conclusions.
- They will write a second grade version of a lab report.

Literacy

- The students are using text features to locate information in non-fiction texts.
- We are on unit 9 for spelling this week. Our pattern is vowel teams. (ee and ea)

Math

- They will be learning how to compare numbers using what they know about place value
- They will be using what they know about place value to skip counting starting at any number.

Social Studies

- Students will be looking at various sources such as artifacts to see what information they provide about the past.

Science

- Students will learn about the relationship between sound and vibrating objects.
- They will learn how an eardrum works
- They will learn about pitch and volume

Reminders/ Upcoming Dates

- Please fill out the preconference survey if you had not already
- Report cards – October 6th
- We will be reaching out to schedule conferences soon.
- OCE will be participating in Wake County's "**Disability History and Awareness Month**" or **DHAM**. This initiative starts 10/2 and ends 10/31. DHAM will be a way to celebrate our students at OCE and all students with disabilities. We will be doing lessons weekly to create an awareness.
